Dear Louis:

I appreciate very much receiving your letter, and today received the books as well. I am looking forward very much to having a chance to get at them and shall pin-point the specific parts that you mention.

I enjoyed very much seeing you at Aspen. I believe that the session was very worthwhile. I always find it stimulating to have a chance to relax and talk and listen to people with widely varied backgrounds. This was a very interesting group and I am sure that I am the better for the session.

I hope our paths will cross again soon.

Sincerely,
